Lecture Videos

Course Notes

📘 Download PDFs of Course Notes ⬇️

Introduction to C++

- My First Program
- Install Dev++ on windows
- Preprocessor
- Processor vs Compiler
- What is iostream

Basics of C++

- Data Types
- Operators
- Operators Precedence
- Constants
- Type Casting
- Comments

Input and Output

- Standard Output in C++ Using `cout`
- Standard Input in C++ Using `cin`
- C++ Escape Sequences
- C++ Manipulators

Conditional Statements

- if, if-else, else-if and Nested if

- switch Statements and Common Patterns
-

Loops

- Introduction to Loops
- while Loop
- do-while Loop
- for Loop
- Patterns and Nested Loops
- Loop Control and Applications
- Choosing the Right Loop in C++ and Solving Mixed Problems

Practice and Program

- Coding Exercises
- Review Questions

Output Code

Fix the Mistake

Course Assignments, Quizzes

Quizzes

1. Quiz #1: **CPP Basics**
2. Quiz #2: **Conditional Statements**
3. Quiz #3: **Loops**

Assignments

Assignment 1: Coursera Courses – Enrollment & Completion

Students are required to enroll in and complete the following Coursera courses:

1. Google AI Professional Certificate
2. Google Prompting Essentials Specialization
3. Google AI Essentials Specialization

Please complete the assigned course(s) and obtain the certificate upon completion.

Assignment 2: Presentation

- C++ Group Presentation Guidelines
- C++ Programming Fundamentals Presentation Topics

3. Assignment #2: # | PDF

C++ Programming Tasks

Guidelines for Folder and File Names

1. Create a Main Folder

Create one main folder named:

`CPP-Programming`

2. Create Topic-Wise Subfolders

Create a separate folder for each topic.

Example:

```
CPP-Programming/
├── Topic-01-Escape-Sequences/
└── Topic-02-Input-Output-Manipulators/
```

3. Save Each Program with a Meaningful File Name

Use a separate C++ file for each example and coding exercise.

Topic 1: Escape Sequences

```
Topic-01-Escape-Sequences/
├── Example-01.cpp
├── Example-02.cpp
└── Example-03.cpp
```

Topic 2: Input and Output Manipulators

```
Topic-02-Input-Output-Manipulators/
├── Example-01.cpp
├── Example-02.cpp
├── Example-03.cpp
├── Exercise-01.cpp
└── Exercise-03.cpp
```

4. File Naming Rules

- Use meaningful and consistent file names.
- Use `.cpp` as the file extension.

- Use hyphens `-` instead of spaces.
- Number examples and exercises in order.
- Save each program in a separate file.
- Avoid names such as `new.cpp`, `test.cpp`, or `final2.cpp`.

Topic 1: Escape Sequences in C++ - Input and Oupt

Tasks

1. **Learn:** Understand the purpose of common C++ escape sequences, including `\n`, `\t`, `\\`, `\"`, `\'`, and `\r`.
2. **Practice:** Write and run Examples 1–3
3. **Modify:** Change the code and observe how the output changes.
4. **Verify Output:** Make sure each program compiles and produces the expected output.

Submission and Checking

- **Due Date:** 15 October 2026
- **Checking:** All 3 examples will be checked on your mobile phone or laptop.

Note: Complete all tasks before the due date and keep your programs ready for checking.

Topic 2: C++ Manipulators - Input and Oupt

Tasks

1. **Learn:** Understand the purpose of the endl and setw manipulators in C++.
2. **Practice:** Write and run Examples 1–3 and complete Coding Exercises 1–3.
3. **Modify:** Change the code and observe how the output changes.
4. **Verify Output:** Make sure each program compiles and produces the expected output.

Submission and Checking

- **Due Date:** 15 October 2026
- **Checking:** All 3 examples and 3 coding exercises will be checked on your mobile phone or laptop.

Note: Complete all tasks before the due date and keep your programs ready for checking.

Digital Skills

🧭 Topic 1: Google Search Tools and Productivity

Tasks:

1. Solve **Google Search exercises** to improve online research skills.
2. Use **Google Maps** to find, locate, and share destinations.
3. Add your **class timetable** in **Google Calendar**, including reminders and recurring events.

📘 *View Full Instructions →*

📧 Topic 2: Email Communication Skills

Tasks:

1. Create a new **email account**.
2. Send emails using **CC** and **BCC** fields.
3. Attach documents or media files.
4. Share files using **Google Drive** links.
5. Enable **two-step verification** for account security.
6. Set up a **recovery email and phone number**.

📘 *View Full Instructions →*

💼 Topic 3: Professional Networking (LinkedIn)

Tasks:

- Create and optimize your **LinkedIn profile**
- Connect with professionals in your field
- Share updates and build your **online presence**

📘 *View Assignment Details →*

💼 Topic 4: Google Meet

Tasks:

1. Install the Google Meet app on your mobile phone.
2. Create a meeting and copy the meeting link.
3. Share the meeting link with a class fellow.
4. Join the online meeting with your class fellow.
5. Share your mobile screen during the meeting.
6. Record a **10-second video** showing the meeting and screen-sharing activity as proof of task completion.

Note: Complete all steps before the next lecture and keep the recording as proof of completion.

Quizzes for Practice

Course Grading Scheme

Sr. No.	Elements	Weightage	Details
1.	Midterm Assessment	30%	It takes place at the mid-point of the semester.

Sr. No.	Elements	Weightage	Details
2.	Sessional Assessment	10%	It is continuous assessment. It includes classroom participation, attendance, assignments and presentations, homework, attitude and behavior, hands-on-activities, short tests, quizzes etc.
3.	Final Assessment	60%	It takes place at the end of the semester.
